

Quality and Environmental Policy

Established in 2005 and located in Romsey, Hampshire, UK, Cobra Hydro UK Ltd install odour control systems, sludge dosing applications and dust suppression systems primarily in the United Kingdom and more recently internationally.

CobraHydro has implemented a quality and environmental management system to the ISO 9001:2015 and ISO 14001:2015 standards. We are committed to comply with all the requirements of the Standards and our management system and to continually improve its effectiveness.

We are committed to the protection of the environment, prevention of pollution and to continually improve the quality of our products and services. We will always meet the specified requirements of our customers and seek to satisfy their expectations. All our products are manufactured to comply with industry-specific requirements and regulations and we are committed to comply with all our compliance obligations.

Cobra Hydro UK Ltd has introduced systems that will set and review measurable quality and environmental objectives. The Directors will provide appropriate resources as required in order to enable the company to meet these objectives.

All staff and people working on behalf of the company are made aware of the aims and objectives of the Quality and Environmental Management System and associated operating procedures, are expected to adhere to its requirements, and are encouraged to suggest ways in which these can be improved.

This Policy is available on our website and is displayed in our office, and is reviewed annually.
